

Current training progress: 1.139 billion transitions
15 September 2026, 14:47 UTC · one continuous run · released CAT actor + critic initialization

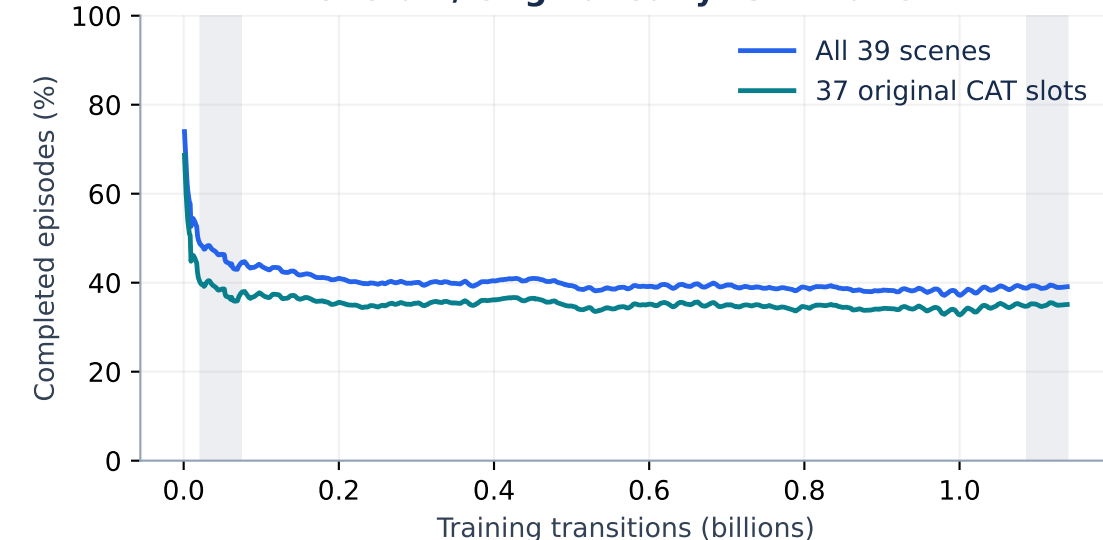

Reward per transition

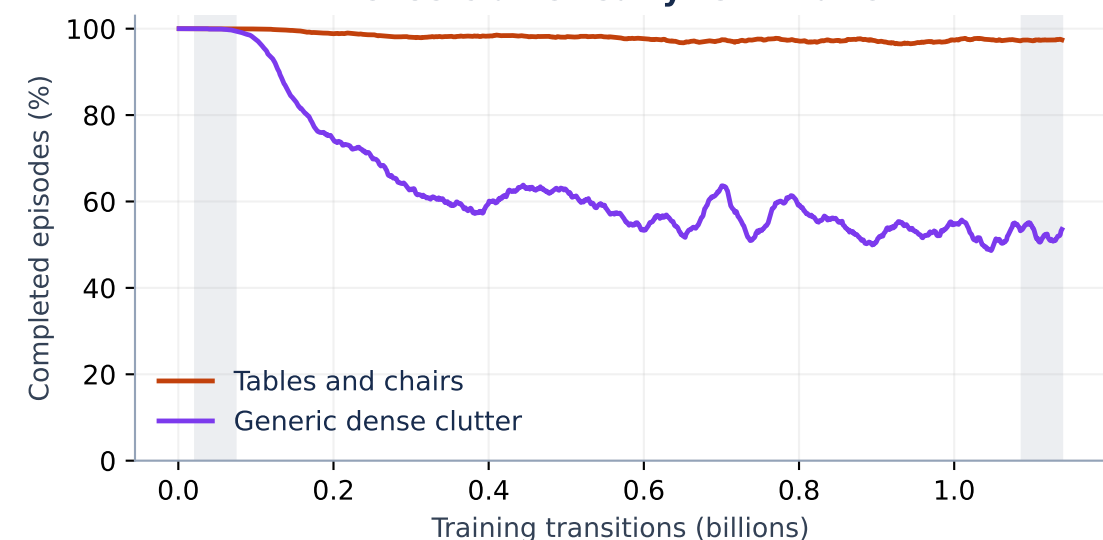

Completed-episode duration

Overall / original early termination

Dense-clutter early termination

Failure curves: reconstructed, episode-weighted trailing 50 updates. Top curves: 20-update smoothing.
Shading: early / latest comparison windows. Timeouts indicate survival, not successful traversal.
