

CAT whole-body training: mixed progress after 566 million transitions
15 September 2026, 12:43 UTC • one continuous run • released CAT actor and critic initialization

Shading: compared early/recent 50-update windows. Failure curves: reconstructed, episode-weighted trailing 50 updates.
Other curves: 20-update smoothing. Timeouts are survival, not goal success; changing scene mix remains a confounder.
